

# RELA Weekly Notice

**20 August 2020**

**Keeping Yourself and  
Others Safe**

This week we say goodbye to

Stiven Mancipe

Next week we welcome

From Brazil

Zeliane De Cerqueira

Remember the basic hygiene rules of washing your hands often, sneezing/ coughing into your elbow, staying home if you are unwell, and physically distancing yourself in public from people you do not know. It is recommended you stay 2 metres from people you do not know and one metre from people in controlled spaces like school. At school, remember to use the hand sanitiser and to clean your desk area at the start of each class.

When outside of the school, you are encouraged to wear a facemask where it is not possible to practice social distancing. And, remember to scan the NZ COVID Tracer QR codes everywhere you go. All businesses are now required by law to display the QR code at or near their main entrance.

**STAY SAFE**  
together we will get through this
